CHARLESTON, W. VA., Jun. 10.—The situation in the Senate, brought about by Democratic intrigue, suits the Repubseen all that has happened in the last two days and been allowed to make use of the best thing they could devise, they could have invented nothing bester than on Wednesday to try to organize, the Republicans thought they were in a hurry. Now they know they are not. Until to-morrow afternoon, at least, and may be longer, they will do nothing and if they can help it will permit noth ing to be done to interfere in the slight degree with the decided advantage the Democrats have given them.

While there is a deadlock there can be no joint convention, and without through the returns, leaving out Kanaand they cannot declare Judge Fleming elected Governor. The Democrats say they merely want to hold the thing open until the contest can be decided. but the Republicans do not trust them in the face of the desperate shifts to which they are resorting.

It has at last dawned on the Dem cratic mind that they have blundered and that the Republicans are profiting

the mastery. Now the Republicans have it. It is expected that the Supreme Court, which was applied to to-day, will give its decision to-morrow or Saturday, though the Democrats say the case will not be decided until the last of the present term. If the Democrats are beaten in the Supreme Court, as Hutchinson and Hubbard, Goff's attorneys, confi dently predict, the query is to what court will they apply next-probably to a Mexican tribunal, where they are accustomed to these things. The Republicans are smiling broadly to-night.

# THE SENATE DEADLOCK.

Still Unable to Organize—Democratic Bom-

bast Sat Down Upon.

Special Dispatch to the Intelligencer.
CHARLESTON, W. VA., Jan. 10.—The House met and adjourned until to-morrow at 2 p. m., being unable to do any thing until the Senate organizes. The Senate might as well have done the same. It met, took three ballots, heard some talk and adjourned until to-morrow at 2

After the Senate had been called to order Mr. Flournoy, of Hampshire county, opened the ball by asking leave to offer a resolution. Mr. Scott, of Ohio county, objected on the ground that nothing was in order until the Senate was organized. He wanted at least to know the purport of the resolution: Mr. Flournoy replied that the object of

Democratic programme to drive Minear so far away from the Republicans that he can't get back. McCreary, of Raleigh, upbratied the Republicans for wasting time and costing the State \$500 a day. The Democrats were willing and anxious to organize, even to the extent of voting for a Republican to help that party. Morris, of Ritchie, quickly snapped up some of McCreary's remarks and gave him a lively pummeling. Vanpelt, Oxley and Sweeney (Democrats) talked in the Democratic key set for the day. SCOTT EXPALINS.

Scott came back by declaring that yesterday he only spoke for himself and meant that the Republicans had the meant that the Republicans had the votes, and when they came together they would elect their man. He insisted he did not speak for the caucus, and other Republicans said the same. On one ballot Scott voted for Price, of Mineral (Democrat), and left the hall for a moment. Then the Democrats began changing to Price, so that Scott had to be sent for to change his vote. On one ballot three Democrats voted for Minear, and there was a rapid changing of Republican votes from Minear, who has not been selected by the Republicans for President of the Senate. In all, three ballots were taken, making forty six in all. A motion to adjourn being made by the Republicans, McCallister (Democrat) said it was the manifest intention of the Republicans to vote as they pleased, and he would vote with them to adjourn. McCallister and Oxley said they might not be present in their seats tomorrow; they were getting tired of this thing, and if they were not present the might not be present in their seats to-morrow; they were getting tired of this thing, and if they were not present the Republicans could organize. At 4:30 the Senate adjourned until to-

Mr. Scott gave the Democratic side a warming in his speech. They had charged delay, and he reminded them charged delay, and he reminded them that two years ago they refused to pass the appropriations to force an extra session. He said it came with bad grace for that party to charge his side with delay, reminding them that they had forced the Senate into this very deadlock by entering into a combination to control it or not permit it to organize. He went on a length and kept turning the knife around, the galleries applauded.

From the energy which the coroner has shown in the matter, it may be inferred that he will leave no stone unturned in his efforts to judiciously and intelligently place the responsibility. When he was met by a reporter this morning he was

about to leave for Mercy hospital to learn what the injured might have to say concerning the accident and the partially completed building.

"I will not empaned a jury until I have made a few more personal investigations and learn all I can about this said affair," said the coroner. rom what the coroner says there can be little doubt of his intention to hold a thorough and satisfactory investigation. At 2 o'clock this afternoon the bodies of Samuel Brown, Jr., and an unknown man were found. They were taken to the morpus.

Many eye witnesses have come to the front who state that they are positive when the first shock occurred that a number of persons were in the alley back of the Weldin and adjacent stores. "I have no doubt," said Coroner Me-Dowell, after a consultation with Dr. Sutton, "that twenty-five or thirty more people lie buried in the ruins. No person knows who were in the road of danger and who were not. Several persons have informed me they saw a large crowd of men run into the alley, which was the next moment filled with a henp of debris twenty-five feet deep. 1 believe such was the case, for it was exemplified when these people rushed into the barber shon to get out of danger. In their endeavor to escape they rushed right into the jaws of death. But another evidence, and more significant than hear say, is the fact that hundreds of inquiries are being made at the more and Belatives friends and persons. when the first shock occurred that

other evidence, and more significant than hear say, is the fact that hundreds of inquiries are being made at the morgue. Relatives, friends and persons in every walk of life called at the morgue and inquired for father, brother, and cousin. I very much foar that many more deaths than are thus far reported will be the final result. It may be late tomorrow alternoon before the entire ruins are explored and carted away."

On the strength of Coroner McDowell's statement, backed by Dr. Satton, the police authorities have issued an order telling all persons who have friends or relatives missing to report them as early as possible to police headquarters. The west wall of the Wiley building, which had been left standing, was so shaky this morning that it endangered the lives of the rescuers, and about noon it was torn down. The rescuing party numbers fully 100 men, but they are not making much headway.

RUNORS OF MORE DEATHS.

Late this afternoon a rumor was current that five women were in the ruins in the cellar of Weldin's store. Howin the cellar of Weldin's store. However it was not entirely authentic and could be traced to no reliable souce, and it is probable that if such were the case it would have been reported before now. Mr. Mason, of Weldin & Co., stated that one of his clerks was missing and a lady customer whom he was serving at the time had not been heard from; and as they were in the cellar it is probable they both have been killed. This afternoon Coroner McDowell empannelled a jury from among the business men and old tesidents of the city and it is proposed to make a searching investigation of the causes leading to the disaster. The jury viewed the bodies at the morgue and inspected the ruins, after which an adjournment was taken until to-morrow morning at 10 o'clock, at which time the

momentarily expected. There are all kinds of rumors in regard to the number still in the ruins. One of the men working on the building yesterday said the was certain they would find at least twelve more, but this is believed to be too high an estimate. None of the men reported missing have been heard from and it is believed that at least eight are still buried in the debris. There is no hope of any now in the ruins being alive, so it is safe to say that the death list will exceed a score.

The streets in the vicinity of the wreck are still full of people, but the terrible excitement of yesterday has given place to awe and pity.

The morpue was besieged with callers all day and many heartending scenes were enacted as anxious visitors discovered in the bruised and distorted features of the dead, the well known faces of loved ones or friends. The bodies lay on cots covered by sheets, so only the faces being visible, and unless for the purpose of identification, not further exposed.

main entact. The bridge was completed by rebuilt last season, enlarged for a double track, material entirely iron and steed, owned by Niagara Falls and Clifton suspension I ridge companys. The stock held in Oswego and Canasia, always paid large dividends. The loss is about \$75,000. The bridge will probably be rebuilt as soon as possible.

A report from Niagara Falls of the bridge disaster says: The anchorage, cables and upright cable supports are altin place. Crowds of people are watching the swaying movements of those parts of the iron work still swinging over the river. Part of the foot and carriage portion of the bridge can be plainly seen declining at the foot of the Canadian bank across the river. There is tions to adjourn to a day certain and to take recesses to every imaginable hour, these motions being propelled by Weaver, of Iowa, who is determined to do all that in him lies to compel the House to consider and vote upon the Oklahoma bill. The House is at a loss how to extricate Itself from its present unpleasant position. Business is at a stand-still, and promises to remain so unless the House should assent to Mr.

Weaver's demand, which is every day becoming less probable. The Democrats believe that it would be useless for them to discipline Mr. Weaver by means of a caucus, as he re-fused to obey the edict of the last one. One Democratic member significantly remarked that the House would not that the wind storm of yesterday did considerable damage to property.
